

## Live Events

### Outdoor and Site Specific

creating an event outside or in at very specific location has its own distinctive challenges. All of this can be managed by our dedicated event management team with over 20 years experience in this area.

Events such as:

- Award Cerimoneys
- concerts and performeces
- product or press launches

We then add the video element to transform the event along with social media support to increase awareness and involve every delegate.

### Your company on tour

When the description of "tour" is used you probably think of music artists.

Take your product range or service, directly to your customers everywhere.

Talk to us about how we can create your event, over and over again in a variety of locations.

### Equipment Hire

sharemedia.tv can supply:

- Sound
- Lighting
- Video equipment
- Projection and plasma screens
- LED video walls
- Staging.

We can supply on an equipment only basis, or with partial or full technical support.

Whatever the size or complex nature of your event small we can supply the equipment to suit.
