

Exhibition Services

Video Content Design

Using the visual impact of video on your exhibition stand will attract customers, create conversations, and demonstrate live examples of your product and service. Examples of content can be:

- Case Studies
- Logo Animations
- Testimonials
- Product Demonstrations
- Promotional Offers
- Software and Website Demonstrations
- Mobile App Demonstrations
- Behind the Scenes Video

The content used in the exhibition can also be used as a post exhibition email marketing, where the new contacts you've made will now be familiar with your branding, reinforcing your message.

Display Stands

Space is precious, so making the most of it is vital.

Using branded video screens from sharedmedia.tv, your message will be clear and well presented.

Bespoke stand design, signage and branding will help you stand out from the rest.
